

Trends in Student Borrowing

A summary of five-year trends in undergraduate borrowing for public institutions in Virginia. The underlying data can be viewed and explored further at <http://research.schev.edu/info/Reports.Guide-to-the-Graduate-Debt-Reports>

Total Public Four-Year Institutions

Four-Year Bachelor's Degree

Graduates from 2013-14 to 2017-18

Student Loans

Known Debt at Graduation of Student Borrowers by Quartiles

Known Debt at Graduation of Student Borrowers

Year	% of grads	25th Percentile	Median	Estimated Payment on Median Debt	Mean	75th Percentile
2013-14	59%	\$16,447	\$26,394	\$280	\$27,276	\$33,066
2014-15	59%	\$16,500	\$26,752	\$284	\$27,959	\$34,196
2015-16	58%	\$16,835	\$26,718	\$283	\$28,501	\$34,646
2016-17	58%	\$16,000	\$26,075	\$277	\$28,703	\$34,762
2017-18	58%	\$16,000	\$26,000	\$276	\$28,937	\$34,700

Note: The four-year bachelor's degree mean and median debt levels reported on this site may differ from that reported by individual institutions. Many institutions report indebtedness based on the Common Data Set definition, which limits the indebtedness level reported to include only those students who entered the institution as first-time in college (FTIC) students. The inclusion of graduates who entered as transfer students may tend to lower the overall mean or median debt level because it does not include any debt that transfer students acquired while attending previous institutions outside Virginia and relatively few transfers from Virginia's two-year colleges incur debt prior to transfer. Repayment estimates assume a standard 10-year repayment rate, and a 5% interest rate for undergraduate loans (for which multiple interest rates exist) and 6.8% for graduate and professional programs. Borrowers with federal loans may be eligible for Income Driven Repayment, which may result in lower payments.

Many institutions report indebtedness based on the Common Data Set definition, which limits the indebtedness level reported to include only those students who entered the institution as first-time in college (FTIC) students. The inclusion of graduates who entered as transfer students may tend to lower the overall mean or median debt level because it does not include any debt that transfer students acquired while attending previous institutions outside Virginia and relatively few transfers from Virginia's two-year colleges incur debt prior to transfer. Repayment estimates assume a standard 10-year repayment rate, and a 5% interest rate for undergraduate loans (for which multiple interest rates exist) and 6.8% for graduate and professional programs. Borrowers with federal loans may be eligible for Income Driven Repayment, which may result in lower payments.

William & Mary

Four-Year Bachelor's Degree

Graduates from 2013-14 to 2017-18
