Career Interests & Work Values Assessment

Everyone has things they hope for in a work environment, like better pay, supervisors who train well, a flexible schedule or a friendly work environment. These are called **work values**, and finding out what you value will help you choose a career that will satisfy you every day. Adding your interests will help you get a list of careers that work just for you!

You can take a career assessment by clicking "Take Assessment" in your profile or by clicking "Find a Great Career" under the "Student" tab at the top of the website. Make sure you're logged in first! This helps you come back to your results later to find a career that will work for your interests and values. The assessment takes about 15-20 minutes to complete. Answer the questions honestly and try not to rush. When you are finished, you'll see a results screen like this.

- Create a free account at vawizard.org, or ask your counselor for your Wizard username.
- Login with your username and password and then click "Profile."
- Take an assessment by clicking the "Take Assessment" button in your Profile, or
- Find it on the "Students" tab at the top of the website.

Interests & Values Assessments

This assessment will help you find careers that you will be happy doing for the rest of your life. There are no wrong answers. Once you've finished the assessment, you'll see four words listed. These are called Holland Career codes, and they help explain what your career interests and work values types mean. The combination of codes is personal to you, based on how you answered the assessment questions. **Write** your primary and secondary interest and values types below.
